## About

Dynamic and detail-oriented Full Stack Developer with over 8 years of experience specializing in client-side programming. Proven track record in delivering diverse and complex web projects in sectors ranging from healthcare to political analytics and homeowner maintenance management systems.

An effective team player in both large and small agile teams, with a knack for translating design team visions into pixel-perfect web formats, while adhering to responsive web design conventions.

Passionate about keeping pace with the latest industry trends and advancements, and committed to continuous learning and professional growth.

Driven by results, I am currently seeking opportunities to leverage my technical skills and passion to become a leading software engineer in a challenging and progressive environment.

# References

Serhii is a great young specialist. One of those who has good knowledge, amazing desire to explore and implement new technologies. I've collaborated with Serhii as product owner and can recommend him as a great front-end developer with huge potential.

— **Sergey Moliavko**

Serhii is a very innovative developer, who always followed the innovations in the industry and successfully applied them in practice. Self-organized and able to achieve the goals. Very friendly, good team player. It was a pleasure to work with him.

— **Anastasiia Voitova**

Serhii is highly professional HTML/CSS technician. We worked together on a few extremely challenging projects, that required continuous attention, constant engagement, commitment, and readiness to generate new ideas, and it proved to be an excellent collaboration. Serhii is especially attentive to details and is eager to try out new technologies and approaches, which makes him a great team member and contractor.
